Maintenance and developing of Drezzy website.  
Technologies: C#, IIS, ASP.net MVC

## Other information

### XP Programming background

During my work at 7Pixel SRL I have used XP programming as main development methodology. That is why I strongly believe in TDD as a driver for knowledge sharing and best-quality code.

For best results to be accomplished, a self-organising dev team is a necessity. In my opinion a software developer acts as an artisan working on an industrial scale.
